Swiss Structured Products Association (SSPA):

Indosuez Wealth Management is new buy-side member of the SSPA

The Swiss Structured Products Association (SSPA) welcomes Indosuez Wealth Management to its ranks as active member and new buy-side representative. This means the industry association represents an across-the-board output chain range of issuers, markets, buy-side and partners.

Zurich, 11 January 2017. As a leading foreign bank in the Swiss market, the roots in the country of Indosuez Wealth Management date back to 1876 with the set-up of its first Wealth Management offices in Switzerland. With offices in Geneva, Lugano, Zurich, Indosuez in Switzerland combines the knowledge of local environments with the vast expertise and opportunities provided by the global network of Indosuez Wealth Management and the Crédit Agricole group.

Sylveline Besson, Global Head of Structured Products and OTC Derivatives at Indosuez Wealth Management, explained the SSPA membership as follows: "Structured products constitute an alternative to traditional investments and provide attractive solutions tailored to meet the specific expectations of our private clients. We are convinced that structured products bring both diversification and performance to the portfolios. As an active designer and distributor of products not only in Switzerland, but also globally in major Wealth Management markets, we decided to join the SSPA to underscore our long term commitment to structured products and to contribute together with the SSPA to the development of our industry in Switzerland and outside its borders."

SSPA successively expanding into a sectoral association

SSPA represents the interests of the most important market participants, which together cover more than 95 percent of the market volume for structured products in Switzerland. Georg von Wattenwyl, SSPA Chairman, added: "We are delighted to welcome Indosuez Wealth Management as a new member with international activities and head-quartered in French-speaking Switzerland, not merely strengthening the buy-side, but also enabling us to extend our geographical coverage."

About structured products

Structured products are investment instruments publicly issued by an issuer whose redemption value is derived from the performance of one or more underlying securities. Equities, interest rates, foreign exchange or commodities such as gold or oil may serve as underlying securities.

About the Association

The Swiss Structured Products Association (SSPA) is the first port of call for all questions associated with structured products. It represents the collective interests of the key market players who bring together over 95 percent of the market volume for structured products in Switzerland. The headquarters of the association are located in Zurich. Further information is available at www.svsp-verband.ch.
