

Media release

Swiss Structured Products Association (SSPA):

Calebo Capital is new SSPA partner member

The Swiss Structured Products Association (SSPA) welcomes Calebo Capital to its ranks as a new partner. The admission of Calebo Capital means the Association has increased the number of its partners to a total of 13, covering the overall value chain from issuers to buy-side, partners and markets. The SSPA now has a total of 38 members.

Zurich, 14 January 2019. As an independent financial partner, Calebo Capital offers bespoke investment solutions for professional Swiss investors since 2016. Expertise as well as in-depth market know-how enable the team of eight specialists to identify investment opportunities at an early stage and to realise these on an opportunistic basis. This draws upon a comprehensive risk management and after-sales process, and integrates structured products in a diversified securities portfolio.

Pascal Hildbrand, Managing Partner of Calebo Capital, commented to the SSPA membership as follows: “Agility, diversity and professional risk monitoring represent the basis for successful investment with structured products. We are looking forward to contributing our expertise and long-standing market experience to the Association, as well as to promoting a wider use of structured products.”

Active industry association with 38 members

SSPA represents the interests of the most important market participants, which together cover more than 95 percent of the market volume for structured products in Switzerland. SSPA President Georg von Wattenwyl: “We welcome Calebo Capital as a new partner, and are pleased that we have been able to continue expanding and broadening the membership base with another expert of the structured products sector and of the Swiss market.”

About structured products

Structured products are publicly issued investment instruments; their redemption value is derived from the trend of one or more underlying securities. These underlying securities may be equities, interest rates, foreign currencies or commodities such as gold or crude oil.

About the Association

The Swiss Structured Products Association (SSPA) is the first point of contact for all matters concerning structured products. It represents the joint interests of the main market participants which together cover more than 95 per cent of the market volume of structured products in Switzerland. The Association's registered office is in Zurich. Further information at www.svsp-verband.ch.
