

Swiss Structured Products Association (SSPA) media release:

Infront becomes a new member of the SSPA

The Swiss Structured Products Association (SSPA) welcomes Infront as a new Partner member. With the addition of the European provider of financial data and technology solutions, the Association further strengthens its expertise in market data, trading, valuation and regulatory infrastructure for Structured Products. The SSPA now comprises a total of 57 members across the entire value chain of the Swiss Structured Products industry.

Zurich – 2 October 2026. The SSPA continues to expand its network and welcomes Infront as a new member in the Partner Broker category. The company provides financial institutions, asset managers and brokers with integrated solutions for market data, trading, portfolio management, valuation and regulatory processes.

Infront supports more than 3,500 companies and over 70,000 professional users across Europe. Its offering includes market data and data feeds, trading and order management solutions, as well as portfolio and advisory systems. In the area of Structured Products, Infront also provides independent valuation and risk solutions across various asset classes and product types, as well as automated solutions for the creation, calculation and distribution of regulatory documents.

Roman Saffran, Business Development Executive at Infront, comments on the new membership: “By joining the SSPA, we aim to further deepen our exchange with relevant market participants in Switzerland and contribute our expertise. Infront combines harmonised market data with independent valuation, risk analysis, scenario calculations and dynamic product modelling. Building on our long-standing experience with Tier 1 banks, we look forward to bringing our expertise as an established analytics provider to the Swiss market and the Association, and to contributing to the continued development of the Structured Products market.”

SSPA represents key participants in the Structured Products market

With members across the entire value chain, the SSPA represents key participants in the Swiss Structured Products market. SSPA President Georg von Wattenwyl welcomes the new member: “We are pleased to welcome Infront to the SSPA. With its broad expertise in financial data, trading, valuation and regulatory technology, Infront complements our network across important parts of the Structured Products value chain.”

About Structured Products

Structured Products are investment instruments publicly issued by an issuer whose redemption value is derived from the performance of one or more underlying securities. Equities, interest rates, foreign exchange or commodities such as gold or oil may serve as underlying securities.

About the Association

The Swiss Structured Products Association (SSPA) is the first point of contact for all questions associated with structured products. It represents the collective interests of the key market players who bring together over 95 percent of the market volume for structured products in Switzerland. The headquarters of the Association are located in Zurich. Further information is available at www.sspa.ch.
